The history of Corti tells already 40 years of experience and knowledge, throughout 2 generations, assuring the quality in the manufacturing and installation of furniture and light carpentry.

Corti provides different solutions, intervening in different areas such as Home Furniture, Furniture and Light Carpentry for Contract projects and for Wholesale Retailers.

It is this ability of reinventing and adapting ourselves, almost daily, that differentiates us from our competitors.

The mission of Corti is to create value through a sustainable production of products that provides full satisfaction to its customers, contributing also for the regional development.

To do so, it assumes the commitment of innovating and updating constantly its production methods, assuring its products remain up-to-date and competitive in the markets it operates.

The modernization of the industrial and IT park, improvement of labour conditions and investment in training, show an active concern with the employees and its continuous professional growth.

The company has a total area of 7000 m², being 5000 m² assigned to the production and the remaining 2000 m² to the storage of raw-materials and subsidiaries.

Corti stands also for an ecological and social responsibility using certified and eco-friendly raw materials, promoting a circular economy by prioritizing local suppliers and supporting social institutions from the region.

Corti has a complete machinery park, from which stands out the 5 CNC machines. It has a working force with about 60 employees, including external assembly teams in permanent displacement.

It has also an I&D Dept. with specialized designers and draftsmen, which develop Taylor made products specific for each customer.

The commercial Dept. speaks different idioms, allowing a personalized follow-up to each customer in it's mother tongue (English, French, German and Spanish).
